

6/10/2020

Dear Parents,

As the numbers of COVID 19 in Yakima county stay high we need to insure that parents understand our guidelines, in accordance with CDC, and the Washington State Department of Health of when to keep your children home.

1. **If your child is sick keep them home.**

2. **If your child has a temperature of 100* or higher, keep them home until they have been fever free, without fever reducers, for 72 hours.**

3. **If your child has a cough that you cannot connect with another health problem keep them home.**

4. **If your child has had shortness of breath that you cannot connect to another health problem keep them home.**

5. **If your child has been in close contact with someone who has tested positive for COVID 19 keep them home for 14 days since last exposure.**

6. **If your child tests positive for COVID 19 please contact us immediately and keep them home until at least 3 days (72 hours) have passed since recovery—defined as no fever without the use of medications and improvement in respiratory signs like cough and shortness of breath; AND at LEAST 10 days have passed since signs first showed up.**
We also require a Doctor's note confirming the date the child is allowed to return.

If we find that one of our children or staff that has been in the facility tests positive for COVID 19 we will notify you immediately. I understand and agree to abide by these guidelines. I also understand that tuition paid is to hold my child's space in the program and will not be reimbursed due to non attendance.
